DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/24/02 has been entered.

Election/Restriction

The examiner states for the record that the restriction requirement remains in effect (Paper No. 9). Under current Office Markush practice, therefore, the search has been expanded to include a single additional compound. That compound is defined when: R¹=t-butyl; R², R³, R⁴ and R⁵=H; and m=n=1. A rejection follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29-39 are rejected, in so far as they read on the species defined above, under 35 U.S.C. 102(b) as being clearly anticipated by EP 325397 (CAPLUS abstract). The reference teaches applicant's compound: RN=124885-17-2.

Allowable Subject Matter

The elected species and its obvious variants (Paper No. 9) remain allowed. Claim 40, drawn to the elected species, is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
